LADDERUP IN 2013-14 – BUSINESS & FINANCIAL PERFORMANCE

Ladderup Finance Ltd (LFL)

The Company being a registered NBFC with RBI is primarily engaged in the business of investing in securities of listed and unlisted companies. The investment portfolio of your Company is diversified across various sectors such as financial services, healthcare, retail, packaging, information technology, real estate, etc.

For FY 2013-14 on a standalone basis, the Company's profit after tax stood at ₹ 234 Lacs as against ₹ 255 Lacs in the previous year thereby a decrease in profits of about 9% as compared to the previous year.

Your Company as in the last few years continues to evaluate investment opportunities in asset based transactions with good growth prospects.

Ladderup Corporate Advisory Private Limited (LCAPL)

The FY 2013-14 was an extremely difficult and uncertain year for companies operating in the financial services space. The global macroeconomic conditions as well as domestic market conditions converged simultaneously to create strong headwinds. There was perceptible impact on margins and profitability for most companies in the financial services space as well.

LCAPL's revenues decreased from ₹ 581 Lacs in previous year to ₹ 536 Lacs and this resulted in the Net Loss for the 2014 of ₹ 51 Lacs as against a Net Loss of ₹ 24 lakhs in the previous year.

LCAPL continued its in-depth coverage and servicing of large and midmarket corporate clients during the year. The Company was able to build significant relationships with many well-known, reputed corporate groups during this year while focusing on deepening relationships with the existing clients through an array of customised advisory services.

The year saw mixed trends in the credit environment. Some sectors underwent stress while others continued to show growth. LCAPL focused mainly on the growth sectors. The year saw a stable trend in credit demand from the corporate and mid-market business segments for working capital and term facilities. LCAPL's debt vertical was able to tap this opportunity.

The volatility and weak sentiment in the secondary markets for most of the year considerably impacted the primary markets. While LCAPL started the financial year with a number of private equity offerings in the pipeline, many of them could not be completed due to challenging market conditions. Some of the deals got extended into the current financial year.

LCAPL also advised on a number of significant cross-border and domestic M&A deals. LCAPL has taken a conscious effort of building a sector based approach and has identified a few sectors of focus viz. Packaging, Chemicals, Engineering, Consumer goods, Renewable Energy and the current pipeline of deals reflects these efforts.

LCAPL strengthened its Merchant Banking Team and the Equity Capital Market (ECM) segment, in the FY 2013-14. The Team has been able to successfully handle an open offer assignment, an underwriting assignment for a Company which got its shares listed on NSE SME platform and a few other valuation assignments.

Ladderup Wealth Management Private Limited (LWMPL)

The business performance of Ladderup Wealth Management was stable during the FY 2013-14. The financial markets witnessed a lot of local and global headwinds during the year. We saw heightened

MANAGEMENT DISCUSSION AND ANALYSIS

volatility in the USD/INR exchange rate with INR touching historical lows. RBI took some very strong measures to control the INR volatility in July 2013 by raising short term rates sharply and also cutting down on liquidity. The move had across the board impact on bond prices. On the stock markets front as well, sharp bouts of volatility were witnessed for the major part of the year. In the month of March, 2014 however, markets staged a smart break out on the potential election results.

On the business front the Asset under Management remained almost static. The effect of new money flows was counterbalanced with exit of some large investors due to their liquidity needs. The team strength remained constant during the year. The Estate Planning vertical gained more strength during the year. It is expected to not only provide an additional stream of revenues but would also help us in client acquisition for wealth management.

The FY 2014-15 looks much brighter with the investment sentiment seeing an uplift. We are also planning to expand our team further to take advantage of the improving market conditions. The focus in the coming year is going to be increasing our assets under management substantially as well as to also strengthen the revenues from the Estate Planning business.

Ladderup Insurance Broking Private Limited (LIBPL)

Ladderup Insurance Broking Private Limited continued its regular business operations this year and the focus has been to generate more business in the area of both General Insurance as well as Life Insurance. The market dynamics being challenging the Company continues its best efforts and practices to sustain itself and perform.

ECONOMIC & INDUSTRY OVERVIEW

The Global economic environment in FY 2013-14 remained challenging. India's real GDP growth continued to remain subdued at 4.7% for FY 2013-14 which was 4.5% for FY 2012-13. This marks two consecutive years of sub-5% GDP growth, reflecting the slowest pace of expansion in nearly a decade as well as slowdown in consumption demand. While slower growth is a major worry, inflation concerns have still remained pertinent with WPI inflation ruling around 6% for the FY 2013-14, falling from around 7.4% for the FY 2012-13. While the CPI inflation which was running close to double-digits at 10.4% for the FY 2012-13 has marginally declined to 9.5% for FY 2013-14. The Current Account Deficit (CAD) declined sharply from a record high of 4.7% of GDP to 1.7% of GDP in FY 2013-14. The primary reason for such an achievement was the steps taken by the Government and RBI in curtailing CAD. The Government put restrictions on imports of non-essential items like gold, silver by increasing customs duty to a peak of 10%. The measures taken by RBI in easing the ECB norms also supported the same. The forex reserve position of the country also improved to USD 304.2 bn. at the end of FY 2013-14 from USD 292 bn. at the end of FY 2012-13.

Such a prolonged slowdown has been the result of a confluence of factors – lingering administrative bottlenecks and associated slowdown in project clearance, large fiscal spending, tight monetary conditions and weak internal as well as external demand.

However, with the new Government coming to power under the leadership of Mr. Narendra Modi there is lot of hope that the new policy framework would support the growth engine. Though there remains some major concerns with a slow monsoon in certain parts of the country and industry growth still being subdued. The food prices would need to be consistently watched, to not let the inflation element go out of control. The current situation indicates that there is likely to be a pick-up in consumption and investment, especially with a heavy thrust on infrastructure development and building capacities.

MANAGEMENT DISCUSSION AND ANALYSIS

FINANCIAL AND CAPITAL MARKET

CAPITAL MARKET

M&A and PE activity

Both M&A and PE deals saw a dip in FY 2013-14 vis-à-vis FY 2012-13

M&A deals saw a dip of 23.7% in terms of deal value in FY 2013-14 (₹ 1,74,117 crores in FY 2013-14 as against ₹ 2,28,223 crores in FY 2012-13) with the number of deals declining by 16.4% (500 in FY 2012-13 as against 598 in FY 2012-13).

The increase in inbound deal activity was mainly due to several MNCs increasing their holdings in Indian units through the market route or indirect restructuring. Pharma, Healthcare & Biotech; Real Estate and Cement were the top sectors which saw maximum activity in Domestic M&A whereas Inbound M&A saw maximum activity in Pharma, Healthcare & Biotech; Telecom and Manufacturing. Outbound M&A was largely focused on the Oil & Gas sector.

There was a notable reversal in cross border M&A activity in terms of value with the focus shifting from outbound to inbound acquisitions in FY 2013-14. A brief summary is as follows:

PRIMARY EQUITY MARKETS

The declining trend of fund raising that began in FY 2011-12 and witnessed in FY 2012-13 saw a continuing downtrend during FY 2013-14. In value terms, Indian companies raised a significantly lesser amount than FY 2012-13. The SME platform witnessed a few IPOs in FY 2013-14 and we hope that the activity on this platform will increase in the future.

SECONDARY MARKET EQUITY

Indian equity markets have seen FII investment of ₹ 79,709 crores in FY 2013-14 as compared to ₹ 140,033 crores in FY 2012-13.

The Sensex was at 18,864 (1st April, 2013 opening) and closed at 22,386 (31st March, 2014), up 18.7% in line with global capital markets. In addition, the markets have been volatile, the current financial year saw the Sensex at a high of 22,467 (31st March, 2014) and at a low of 17,449 (28th August, 2013).

The mutual fund industry has registered an increase of 10.6% in the market value of its assets under management (AUM) during the FY 2013-14 with the AUM approximately at ₹ 9,10,795 crores as on 31st March, 2014 as against ₹ 8,23,195 crores as on 31st March, 2013.

The victory of the Modi Government has brought 'Achhe Din' in the capital markets, taking indices to new highs and the investor sentiment has improved. In the coming years, the Company believes strongly about the growth prospects of the Indian economy and the financial markets. Indian Companies will draw significant attention from domestic as well as global investors which would lead to healthy fund raising from primary markets – from IPOs as well as PE funds. Also, tremendous growth opportunities for Companies across industries and growing aspirations of Indian corporates will result in significant M&A activity with divestitures/mergers/reorganizations, etc. taking place in large numbers.

OPPORTUNITIES

The sentiment in the Indian financial market has changed considerably over the past few years; the economic growth, though subdued for last couple of years, is likely to show positive momentum over the coming years. This has presented ongoing opportunities for financial intermediaries to spread and benefit from the investment culture across the country.

MANAGEMENT DISCUSSION AND ANALYSIS

Following factors present specific opportunities across our businesses:

- Improved sentiment, regards both consumption and investment, on account of formation of a stable government;
- Clarity on reforms related to FDI and retrospective taxation, positively impacting investments through FII and FDI route and thus paving the way for increased Inbound M&A and PE;
- Improvement in fund raising activities through primary capital markets;
- Higher disinvestment target by the new Government;
- Growing Corporate activities and related need for fund raising, re-organisation and acquisitions;
- Low penetration of financial services and products in India;
- Globalisation - corporates looking at expanding in domestic/overseas markets through merger & acquisitions;
- Growing midsize segment of corporate activity where the need for customised solution is particularly high;
- Regulatory reforms including policy framework aiding greater participation by all class of investors;
- Growing Financial Services industry's share of wallet for disposable income;
- Wealth management business transforming from mere wealth safeguarding to growing wealth;
- Regulatory reforms would aid greater participation by all class of investors;
- Emerging technology to enable best practices and processes;
- Size of the Indian capital market and favourable demographics like huge middle class, relatively large younger population with disposable income and investible surplus and risk taking abilities of the youth.

In this backdrop, Ladderup Group has evolved into a strong and focused financial services organization over the years and is set to further accentuate its business growth in the Investment Banking, Merchant Banking, Debt Syndication and Wealth Management.

THREATS

Despite great opportunities, there are significant factors presenting threats to our businesses viz.

- Bad monsoon leading to higher food prices, thus inflation may continue to remain out of control which may lead RBI to continue with monetary tightening policy measures;
- Impact on economic growth of the rising prices of oil and industrial raw materials and high inflation;
- Volatility in the Rupee-US Dollar movement due to various factors including current account deficit;
- Increased competition from local and global players operating in India;
- Continuous downward pressure on the fees, commissions and brokerages caused by an overbanked market and willingness of most players to deliver services at very low fees.

However, your Company is well aware of the above threats and has worked steadily to strengthen its business operations by putting appropriate policies and measures in place and well positioned to counter any adverse threat successfully.

MANAGEMENT DISCUSSION AND ANALYSIS

RISK AND CONCERN

In this era of globalisation the financial service sector has been integrated with the global markets and is becoming more complex and competitive with introduction of newer and complex products & transactions, stringent legislative and regulatory environment. MANAGEMENT DISCUSSION AND ANALYSIS

which facilitates monitoring and adherence to the process and systems and various statutory compliances. These have been designed to provide reasonable assurance with regard to maintaining proper accounting controls, monitoring economy and efficiency of operations, protecting assets from unauthorised use or losses, and ensuring reliability of financial and operational information published from time to time.

OUTLOOK – 2014-15

The FY 2014-15 started on a note of optimism and above all HOPE. The new and stable Government at the Centre has raised expectations from people across all the segments – industry, services, agriculture *et al.* To turn the economy from its current impasse it would need major efforts and policy measures backed by timely implementation. A lot is desired, especially towards boosting overall business environment and reposing faith in the Indian economy.

The recent Budget clearly indicates that there is renewed push for investments in the infrastructure, energy, manufacturing and exports which would facilitate the economy to regain its lost momentum and aim at higher GDP growth. At the same time the RBI and the Government is quite focused on improving the fiscal discipline by reining the fiscal deficit and bringing it further down. For this an important consideration would be the achievement of disinvestment targets and the improvement in revenue collections. The external environment especially improving global economy will also weigh on improving overall growth rate.

For FY 2014-15, the GDP growth rate is expected to range between 5.4% to 5.9% with expectations of better performance from manufacturing, modest global growth revival and improved balance of payments situation. Government is cognisant of the fact that it cannot depend on external environment and has to move quickly to restore the growth momentum for the economy. We expect that the current year would set the undertone for revival which would gain good momentum in coming years.
